No. R. 4035-44—L. R. 595-14-2, DATED 11TH OCTOBER 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ AGAIN—

(1) Government Order No. R. 2619-28—L. R. 270-12-1, dated 14th November 1912, directing the addition of a new Rule 73A to the Land Revenue Rules, providing for the constitution of "recognised shares" of survey numbers into separate survey numbers at the time of resurvey.

READ—

Letter No. * 136, dated 29th April 1915, from the Superintendent, Revenue Survey and Settlement, suggesting certain amendments to Rule 73A.

* (Printed as an accompaniment.)

Order No. R. 4035-44—L. R. 595-14-2, dated 11th October 1915.

The rule referred to above authorises shares in a survey number if above the minimum, being constituted into "recognised shares" at any time by the Deputy Commissioner and such "recognised shares" can be made into separate survey numbers only during resurvey. As sub-division of survey numbers is effected at other times only when it is required in the interests of Government or when it is deemed necessary to afford facilities for bringing under cultivation unoccupied survey numbers of unwieldy size, the Survey Superintendent states that the facility provided by Rule 73A cannot be availed of by the holders of land in taluks into which revision settlement has already been introduced. Since applications for sub-dividing survey numbers in other cases are at present refused on the ground of the extra labour and cost involved, he suggests such applications might be entertained and sub-divisions effected at all times, if the cost of the survey operation involved be paid by the applicants in advance and states that a similar practice obtains in the Bombay Presidency.

2. The Revenue Commissioner who was unofficially consulted in the matter has agreed with the Superintendent, Revenue Survey. Government are therefore pleased to direct that the following be added to Rule 73A:—

"But at other times sub-division will be effected in the interests of co-occupants, co-sharers or holders of 'recognised shares' in survey numbers only on the presentation of written applications by them to the Survey Superintendent who may direct that such sub-division shall not be effected until the cost of the Survey operations involved or such portion thereof as he may deem necessary, has been deposited by them."

A notification to this effect will be published in the Gazette.

ACCOMPANIMENT.

Letter No. 136, dated 29th April 1915, from D. K. Darashah, Esq., B.A., Superintendent, Revenue Survey in Mysore, to D. M. Narasinga Rao, Esq., B.A., B.L., Officiating Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to state that I have been receiving applications from co-sharers of survey numbers in taluks in which revision settlement has already been introduced, to have their shares constituted into separate survey numbers, but these are, as a rule, being rejected, as sub-division is permitted under Government Order No. R. 9588-97—L. R. 520-11-4, dated the 16th June 1914, only where it is required in the interests of Government or in order to afford facilities for bringing under cultivation unoccupied survey numbers of unwieldy size. Under the recently promulgated Rule 73A of the Land Revenue Rules, the shares, if above minimum, of co-occupants or co-sharers may be constituted into "recognized shares" of survey numbers on the application of the parties concerned. The rule adds that "these recognized shares will be made into separate survey numbers during resurvey." It is apparent from this wording of the order that the facilities contemplated are for holders of land in yet unrevised taluks, and that they are not meant for holders of land in taluks already resettled, for while there is an opportunity for regular field work by the Survey Department during re-survey in the former, there is no such opportunity in the case of the latter. In Bombay as in our own State, where one and the same system of survey has so far been followed, field work has been done by the department only during the original and the revision surveys. When these operations are completed, there will be, for aught I know, no further resurvey in Mysore, involving regular field work on any considerable scale, by the Survey Establishment. It is therefore highly desirable that help should be given to holders of land in resettled taluks in having their shares constituted into separate survey numbers by the survey as long as it exists as an independent Department. This measure would to a great extent go to meet the wishes of the members of the Representative Assembly, who have been loud in their complaint in respect of this question year after year. Before effecting the sub-division in the field, it will of course be necessary that the Revenue Department should on the application of the parties investigate and ascertain the several shares, just as they would in dealing with cases coming under Rule 73A, before moving the Survey Department to have the shares constituted into separate numbers. I think therefore that the separate demarcating and recording of shares above minimum may be usefully turned into a concession applicable to all taluks in the Province.

This suggestion, if adopted, would naturally involve some labour and expense both on the Revenue and the Survey Departments, but Government may find compensation to a sufficient extent by making the parties pay for the sub-division work executed at their request. I am certain that the majority of the raiyats really in need of the sub-division of their lands will not grudge paying the cost of the work involved; and I may add without hesitation that the relief so obtained will be regarded as ample amends for the expenditure incurred by them. This suggestion is based on a similar system which prevails in Bombay as may be seen from the observations made by the Survey Commissioner there which I transcribe below:—

"The present rules for the sub-division of lands have been gradually adopted after prolonged experience gained in all parts of the Presidency." Commencing with a system of somewhat arbitrary division of lands into survey numbers, the survey numbers, the survey has now become virtually a survey of holdings."

"But all that is now done in the matter of such sub-division is done in the interest of good revenue administration only, and not for the convenience of the cultivators. Any sub-division over and above that required by the rules is only undertaken at the expense of occupants." (Page 435 of Sathis Land Revenue Code, IV Edition.)

Coming to the question of costs, I may state that the expenditure for a single sub-division may be fixed at a minimum of Rs. 3 in consideration of the time taken by the measurer to go from his headquarters to the village in which the work has to be done, and the subsequent labour involved in the correction of survey records. Subject to this minimum, it seems to be desirable to leave the matter of estimating the cost in each particular case to the discretion of the Survey Superintendent who will regulate it according to circumstances.

In response to a request I recently made to the Director of Land Records, Bombay, on the subject of calculation of costs in respect of such sub-divisions, he writes in his letter No. 75, dated the 15th April 1915, as follows:—

"Here the applicant is at present expected to deposit a lumpsum of Rs. 3 or Rs. 5 and so on, according to the number of survey numbers and the extent of the work. The work is then done by the Circle Inspector and the District Land Record Staff, and on completion the cost is assessed according to certain formulæ in order to cover the pay of the Circle Inspector and his peons, the cost of preparing extracts from survey records, the cost of labour and travelling. When this cost is determined it is deducted from the deposit made by the party, the surplus of which is then refunded. The details of this calculation are under revision, but I presume that they would not be of much assistance to you, since of course they depend on other conditions such as the rates of pay of the Circle Inspectors or other measuring staff, and the other details."

It is easy to see that the cost of sub-division in Mysore as in Bombay should not and cannot be based on any inform scale except as regards the minimum preliminary deposit, and I think Government may safely trust the Survey Superintendent to make a valuation both sympathetic and just, in

each case as it occurs, the elements entering into his calculation being, the pay of the official deputed, the time spent in sub-division work, in travelling and in harkath or idleness due to causes that the applicant may be expected to have been able to avert.

If the above views commend themselves to Government, a slight change in Rule 73A will become necessary and it may be modified as follows:—

The last sentence of the rule, "these recognized shares.....under Rule 72" may be deleted and the following words may be added "provided that when sub-division is effected at the request of and in the interests of co-occupants, co-sharers or holders of recognized shares in survey numbers, the Survey Superintendent may direct that such sub-division should not be effected until an application accompanied with the cost of the survey operations involved or such portion thereof as he may deem necessary, has been presented by the parties interested."

Report on the Condition of Boundary Marks.

No. R. 4276-85—L. S. 11-15-2, DATED 28TH OCTOBER 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 46, dated the 31st August 1915, from the Superintendent, Revenue Survey and Settlements in Mysore, submitting the report for the year ending 30th June 1915, on the condition of the boundary marks in the State and the extent to which the villagers co-operated with the Field Establishments during re-survey operations.

I have the honor to submit the following report for the year ending 30th June 1915, on the condition of the boundary marks and the degree of co-operation enlisted by the Field Establishments during the progress of re-survey operations.

2. The 'A' Establishment under Mr. T. Dharmaraja Chetty, Assistant Commissioner, continued to work in connection with the Cauvery Reservoir Works. There was in the case of this establishment no systematic inspection of survey numbers with reference to original boundary marks.

3. The 'B' Establishment under Mr. T. Govinda Rao, Assistant Commissioner, was employed during the year under report in the Goribidnur Taluk as it stood at the original settlement, and also in a portion of the original Dodballapur Taluk. Of the total number of 4,208 working days, 2,091 days or 49·69 per cent were devoted to the inspection and restoration of boundary marks, and out of this number 1,069 days or 25·40 per cent of the working days was spent in restoring boundary marks found in an abnormal condition. The total number of bandhs and stones missing was 7,379 and 18,287 or 8·79 per cent and 23·62 per cent respectively. The number of days on account of non-co-operation of villagers was 50 or 1·19 per cent of the total number of days. The names of the Sub-Division Officers and the Amildars in charge of the respective taluks are as hereunder :—

	Taluk	Amildar	Sub-Division Officer
1.	Goribidnur	Mr. C. V. Krishnaswami Rao	Mr. M. G. Krishnaswami Rao
2.	Dodballapur	„ Mahomad Syed Sheriff	„ M. Srinivasa Murti

4. No opposition or listlessness worthy of notice was experienced from the raiyats, and this was largely due to the interest taken by the Amildar and the Sub-Division Officer. The Deputy Commissioner of Kolar had issued injunctions in this matter, of a very effective kind, to which is due much of the success that has attended the operations of the 'B' Establishment.

5. The 'C' Establishment under Mr. D. Srinivasa Rao, Assistant Commissioner, was employed in the original Chikballapur Taluk now forming portions of the Chikballapur, Goribidnur, Devanhalli and Dodballapur Taluks, where 5,296 days or 82·42 per cent of the total number of 6,426 working days were devoted to the inspection and restoration of boundary marks; out of this number 2,654 days or 41·3 per cent were taken up on account of the abnormal condition of boundary marks. The total number of bandhs and stones missing was 7,227 and 20,056 or 10·74 per cent and 28·97 per cent respectively. The names of the Sub-Division Officer and the Amildars in charge of the respective taluks are as hereunder :—

	Taluk	Amildar	Sub-Division Officer
1.	Chikballapur	Mr. J. Ball	Mr. M. G. Krishnaswami Rao
2.	Goribidnur	„ C. V. Krishnaswami Rao	„
3.	Devanhalli	„ T. K. Lakshmana Iyer	„

6. This Establishment also did not encounter any serious difficulties in respect of co-operation.

7. The department has after all once more to deprecate the loss of about a half of its working time in measuring for lost marks and in getting them replaced. The wilful removal of boundary marks especially of stones, the unrestricted cultivation of the ridges which according to rules should be left untouched between field and field, and the defective manner in which the annual inspections are worked are among the root evils. Discovery and report on marks erased and deterrent punishment where guilt is proved do not appear to be principles kept steadily in view by the taluk authorities either here or anywhere else.

8. The 'M' Classing Establishment under Mr. K. G. Shamanna, Assistant Commissioner, was employed on Sub-Division work in Kankanhalli and Closepet Taluks and re-classification work in the thirteen villages of the Magadi Taluk as also of a few villages commanded by the Mavathoor tank. There was thus no boundary inspection work carried out by this Establishment.

9. A statement showing the condition of the boundary marks in the taluks resurveyed and the days lost in dealing with them is attached hereto.

Order No. R. 4276-85—L. S. 11-15-2, dated 28th October 1915.

Recorded.

2. The Superintendent states that this year also more than half the working time of the establishments was lost in measuring for missing marks and getting them replaced. The Revenue Commissioner, who was consulted in the matter, reports that the Deputy Commissioners have been specially instructed to strictly enforce Rule 85 of the Land Revenue Rules regarding the proper inspection and maintenance of boundary marks. Government trust that the above instructions will be properly attended to and better results shown in the ensuing year's report.

Letter No. 7688, dated 29th May 1914, from the Comptroller to Government requesting orders as to whether the Audit office may, as usual, authorize officers holding appointments carrying progressive pay to draw increments when they fall due, or whether Government sanction is necessary in each case as the increment falls due and if the latter, whether the rule should be followed in the case of only the officers of the Forest Department or it should be regarded as of general application

Order No. R. 3859-907- Ft. 117-13-14, dated 4th October 1915.

Government consider that the power to sanction or withhold such increments according as the service rendered by the officer is approved or otherwise, vests with the authority which makes the appointment, and direct that in the case of all officers, whose appointments on progressive pay, are sanctioned by Government, the Audit office should authorise the drawing of increments only on the sanction conveyed by Government in the Administrative Department concerned. The Audit office should however take the initiative and make a reference in good time and ask for the orders of Government.

Resolution No. 8 of the Judicial Conference of 1914 to the effect that a good knowledge of the Kannada language should be insisted upon in the case of all the Civil Judges, excepting the Judges of the Chief Court.

Order No. J. 1382-3—Cts. 201-14-2, dated 6th October 1915.

Government agree with the Chief Court that the measure proposed is a desirable one inasmuch as a good knowledge of Kannada is absolutely essential for a Judicial officer in Mysore both for appreciating the oral evidence and for correctly understanding the documentary evidence in a case.

2. Government are accordingly pleased to direct that, as in the case of persons admitted into the Mysore Civil Service, such as the persons appointed as Munsiffs or Subordinate Judges as have not taken Kannada as their optional language in a University or other recognized public examination should pass an examination in that language before they can be confirmed

The Kolar District Board Railway Budget for 1915-16, received with the President's letter No. 1836 of the 26th April 1915.

Order No. 2816-27—L. B. 219-14-5, dated 5th October 1915.

Opening Balance.—The opening balance is estimated at Rs. 51,798 on the supposition that the capital expenditure during 1914-15 is only Rs. 15,000. But as it is ascertained that the District Board share of the capital cost during 1914-15 will probably be Rs. 4,00,000 the opening balance will be modified accordingly and taken at 3,33,202 rupees.

2. *Railway Construction.*—A sum of Rs. 50,000 will be provided under this head as estimated by the Comptroller.

3. *District Office Establishment.*—Payment to the temporary clerk on Rs. 50 beyond the period of one year sanctioned in Government Order No. 2894-7—L. B. 125-14-2, dated the 25th September 1914, should not be made without due sanction.

4. *Sinking Fund.*—The Board cannot provide for a sinking fund, when they have a minus balance. In lieu of the estimate of Rs. 13,140 proposed under this head, a sum of Rs. 12,000 will be provided for payment of interest on the minus balance.

5. The budget estimates as above revised and sanctioned stand as shown below:—

Items	Capital account		Maintenance account		Total sanctioned estimate for 1915-16

No. 2816-27—L. B. 219-14-5, DATED 5TH OCTOBER 1915.

6. The question as to whether a revision of the District Fund heads of account was necessary for showing the Railway transactions separately was deferred for consideration along with this budget. The Railway items being very few in number, Government consider that no change in the present heads of account is necessary as the transactions of the Railway may be easily written up from general accounts.

2. Correspondence ending with letter No. G. 11993—G. M. 81-13-24, dated 4th May 1915, to the Superintendent, Government Press, increasing the number of coloured copies to 2,000 in addition to 200 copies on Satin, and giving certain instructions about their printing and distribution.

3. Correspondence ending with letter No. 595, dated 2nd September 1915, from the Superintendent, Government Press, intimating the receipt of 6,000 copies of the portrait in brown, and soliciting instructions regarding their disposal.

Order No. G. 4649-700—G. M. 81-13-31, dated 2nd October 1915.

The 6,000 copies in brown now received will be distributed suitably framed, to all educational institutions in the State other than High Schools and Colleges which will be supplied with coloured copies when received.

2. Coloured copies will also be supplied to all Public offices in the State including Courts, and the Municipal offices at Bangalore and Mysore. The specially mounted variety of these copies, *viz.*, on Satin, of which only one hundred copies are available, is intended for distribution to specially selected large halls such as those in which important public meetings, etc., are held.

3. Heads of Departments and Deputy Commissioners of Districts are requested to specify at an early date, the offices and institutions to which, in their opinion, the coloured copies either ordinary or specially mounted may be supplied.

4. All portraits will be supplied suitably framed. The Superintendent, Government Press, is authorised to call for tenders for framing, and submit the same to Government for sanction at an early date. In the case of the educational institutions, the cost of framing will be met from the grant provided for the purpose; but in the case of the others it will be charged to the contingent grant of the respective offices and institutions concerned.

5. The remaining number of copies after effecting the above distribution will be stocked in the Government Central Book Depot and the Government Industrial Depot for sale to the public at actual cost price. An announcement to this effect may be published in the *Mysore Gazette* and in select local newspapers.

6. The Superintendent, Government Press, is requested to ascertain and intimate to Government, the cost of framing a copy of the portrait of each of the three kinds referred to as well as the price at which the unframed copies may be sold to the public.

Letter No. 2669, dated 14th December 1914, from the Chief Commandant, Mysore State Troops, representing that the rules prescribed in Government Order No. G. 4664-5—Mily. 111-12-3, dated 19th December 1913, for the grant of leave to officers and men of the Local Service and Infantry Regiments have been found to be inconvenient for the men in respect of the Furlough Season and submitting a set of revised rules for adoption in the Regiments.

Order No. G. 5063-4—Mily. 150-14-2, dated 20th October 1915.

The revised rules are generally approved. It is, however, desirable that as many men as possible should be present during the Seasons of Manoeuvres and the Birthday and Dasara Seasons and that no leave should be granted to the men during those periods.

2. The rules amended in this respect and rearranged in form and shown in the Appendix to this order are sanctioned.

3. The rules will be incorporated in Mysore Service Regulations in Part III under "Leave Rules."

APPENDIX.

Rules for the Grant of Leave to Officers and Men of the Local Service and Infantry Regiments.

Furlough (on full pay).

1. The period of Furlough admissible is thirty days for every calendar year after a service of one year.

2. The period of thirty days admissible as above may be availed of in full at one time or in two instalments of not less than fourteen days at a time with an interval of not less than six months between the instalments.

3. No leave shall be granted during the following periods:—

(1) December, January and February— – Manoeuvres season.
(2) 20th May to 30th June—Birthday season.
(3) 15th September to 31st October—Dasara season.

4. Furlough cannot be carried on from year to year, but if no Furlough has been availed of for three years consecutively, three months' Furlough may be granted.

5. If the Furlough due is not taken during the calendar year, it will be forfeited unless specially allowed in lieu of sick leave as provided for in Rule 8.

6. Furlough may be granted up to ten per cent of a Regiment at a time, but the Commandant and the 2nd in Command shall not be absent at the same time.

Short Leave.

7. Short Leave may be granted in the Regiments not exceeding seven days at a time and not more than fifteen days in all in the calendar year. In the case of rank and file such leave may be granted up to a limit of five per cent in addition to the ten per cent on Furlough under Rule 6.

Sick Leave (Half Pay).

8. Sick Leave may be granted only on the recommendation of the District Medical Officer

9. In cases, where no furlough has been availed of during the calendar year under Rule 1 or for three consecutive years, under Rule 4, full pay may be allowed for the first thirty days or ninety days of Sick Leave as the case may be and half pay for the remaining period.

Leave Without Pay.

10 In special cases where leave of no other kind is admissible under the above rules, leave without pay may be sanctioned, on the recommendation of the Commandant who should satisfy himself as to the real urgency of every case recommended by him.

Holidays.

11. Fridays and Sundays shall except on emergencies be observed as holidays for troops

General.

12. The Chief Commandant is authorised to grant the following leave:—

(1) Furlough to officers under Rule 1.
(2) Short leave of over 5 days' duration under Rule 7 to officers.
(3) Sick leave under Rules 8 and 9.
(4) Leave without pay.

13. Subject to the general sanction of the Chief Commandant, the Commandant may grant the following leave:—

(1) Furlough under Rule 1 to Non-Commissioned officers and men.
(2) Short Leave to officers up to five days and to Non-Commissioned officers and men to the extent admissible.

14. In all cases of leave no extra allowance of time will be granted for the journey.

15. Applications for extensions of short leave should be discouraged as far as possible. In cases of real urgency, the Commandant should make a careful enquiry into the circumstances of the case and may recommend an extension of leave for the period absolutely necessary, explaining the circumstances. The whole period of leave from commencement will in such cases be treated as leave without pay.

The following letter from the Inspector-General of Education in Mysore.

I have the honor to forward herewith a copy of a letter received from Sri Bhagirathamma, Assistant Mistress, Maharani's College, Mysore, offering a sum of Rs. 1,000 for prizes to be annually awarded to the pupils of the Maharani's College, Mysore. The donor requests that the sum may be kindly accepted by Government as a permanent endowment, from the interest on which annually two prizes may be awarded by Government, one to the girl who passes first in the Lower Secondary Examination in English and the other to the girl who passes first in the Kannada Lower Secondary Examination from the Maharani's College. In a letter received subsequently from the Lady Superintendent, Maharani's College, Sri Bhagirathamma has consented to the sum being deposited in the Mysore Government Savings Bank at the usual rate of interest. In these circumstances I recommend that Government may be pleased to accept the endowment as per terms suggested above.

Letter from Sri Bhagirathamma, Assistant Mistress, Maharani's College, Mysore, to the Inspector-General of Education in Mysore, Bangalore.

I beg to state that while I was a scholarship student, I set apart every month one day's scholarship and when I became a teacher I similarly set apart one day's pay and those savings have now accumulated in the course of twenty-nine years to a sum of rupees one thousand. It is now in the Mysore Government Savings Bank in my name.

I wish to invest it with Government as a permanent endowment from the interest of which annually two prizes may be awarded by Government, one to the girl who passes first in the Lower Secondary Examination in English and the other to the girl who passes first in the Lower Secondary Examination in Kannada from the Maharani's College.

I request you to be so good as to recommend to Government to accept the investment on the above condition and to order the investment of this sum so as to fetch the highest interest granted to charitable endowments of this kind.

I am sensible of the smallness of the contribution, but hope that my sincere desire to encourage according to my humble means female education will meet with the approval of Government.

2. Correspondence ending with letter No. 5679—304, dated 2nd October 1915, from the same officer on the subject.

Order No. 1780-2—Edn. 41-14-23, dated 20th October 1915.

The spirit displayed by Sri Bhagirathamma is very commendable and deserves encouragement.

2. In appreciation of her generous gift Government are pleased to sanction a sum of Rs. 1,000 to be added to the amount of Rs. 1,000 offered by the lady. Interest at the concession rate allowed on charitable endowments will be given for the aggregate sum of Rs. 2,000 as a special case; and it will be devoted to the award of two prizes annually in her name, one to the girl who passes first in the English Lower Secondary Examination and the other to the girl who passes first in the Kannada Lower Secondary Examination from the Maharani's College, Mysore.

3. The Inspector-General of Education is authorized to administer the interest accruing on the deposit from time to time.

4. The source to meet the amount of Rs. 1,000 to be given by the Government, will be pointed out by the Inspector-General of Education to the Comptroller.

CONFIDENTIAL. **Sandalwood Oil Factory.**

CAMP No. 53-58—A. & I. 80-15-3, DATED 30TH OCTOBER 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

DEPARTMENTS OF EDUCATION AND AGRICULTURE.

READ—

Letter No. 1117, dated the 23rd September 1915, from the Director of Industries and Commerce in Mysore, forwarding a copy of Dr. Sudborough's report regarding the enquiries made by him with reference to Sandalwood Oil Distillation whilst in London and proposing that a sum of one lakh of rupees be placed at the disposal of the Director for erecting a Sandalwood Oil Factory on the edge of Sankey's tank.

(Printed ~~as annexure~~ separately.)

2. Letter No. 1153, dated the 27th September 1915, from the same officer, furnishing rough estimates regarding the details of cost of the plant and of working expenses.

(Printed ~~as annexure~~ separately.)

Order No. Camp 53-58—A. & I. 80-15-3, dated 30th October 1915.

As a result of the experiments carried on in the Indian Institute of Science and of the enquiries made by Dr. Sudborough on the subject of Sandalwood Oil Distillation in England, the Director of Industries and Commerce reports that it would be possible to start at once near Sankey's reservoir, as a profitable concern, a small experimental factory capable of dealing with about five tons of sandalwood per week and requests that a sum of one lakh of rupees be placed at his disposal for the purpose.

2. An approximate estimate of the proposed Sandalwood Oil Distillery and of the monthly expenditure for working expenses as calculated roughly by the Director of Industries is given in the appendix attached to the order.

3. Government are pleased to sanction the erection of a Sandalwood Oil Factory as proposed by the Director.

It may be located on the site of the Sankey's reservoir lodge and the existing building utilised as an office. In erecting buildings and putting up the machinery, the Director is requested to bear in mind the temporary character of the factory. Should the results of the present experiment prove satisfactory, the factory may be finally located at a place, where there are greater facilities for the supply of fuel and sandalwood. He should also make proper arrangements for the efficient disposal of all waste materials and refuse from the factory and for the return of the water taken for condensation to Sankey's reservoir.

4. As regards the proposal of the Director to engage the services of Dr. Sudborough and Dr. Watson of the Indian Institute of Science as Consulting Chemists to provide him with competent technical advice and chemical assistance, Government have no objection to pay them a reasonable fee for their joint services subject to a maximum of Rs. 500 a month according to the extent of the services rendered by them and also to make a terminal payment of Rs. 30,000 if, as a result of their investigations and assistance, Government are able to open a larger factory with a turnover of at least two lakhs of rupees a month. The Director is requested to consult the gentlemen and send up further proposals in the matter together with the draft of an agreement to be entered into by them and a set of rules to regulate their work and their relation towards the concern and the management thereof. The agreement should provide for Government having the full benefit of any improved processes and appliances that may be discovered or invented by them. On receipt of these proposals, final orders will issue on this point.

CAMP NO. 53-58—A. & I. 80-15-3, DATED 30TH OCTOBER 1915.

5. The Director of Industries should intimate to the Conservator of Forests in Mysore, from time to time, the quantity of the sandalwood and fuel required for the factory, to enable that officer to make the necessary arrangements for supplying the same. The sandalwood will be charged at the average rates realised at the sales each year and firewood at nine rupees a ton.

6. The Director will be responsible for the general management of the concern and for securing suitable plant, erecting the factory and for all technical details connected with the working thereof. A board consisting of the Comptroller and the Financial Secretary to Government, the Conservator of Forests and the Secretary to the Industries and Commerce Committee will be associated with him for the management of the concern on proper commercial lines. The Director is requested to frame necessary rules for the conduct of business in communication with these officers and forward them for approval of Government. Accounts should be maintained on strictly commercial lines.

7. A grant of one lakh of rupees is sanctioned for purchase of machinery, etc., in connection with the factory. The Director is authorised to place an order for all articles of machinery urgently required, forwarding a list thereof to Government and furnish detailed estimates in due course for the sanction of Government. Except in every urgent cases the Director should obtain the previous sanction of Government in the case of all purchases of machinery and stores, where the cost is likely to exceed Rs. 3,000 and conform, as far as possible, to the rules issued in Government Order No. Fl. 2760-809—G. F. 214-10-88, dated the 23rd December 1913.

8. The Director is requested to apply for an additional grant for working expenses in time for sanction when the work is about to be commenced. Government do not consider it necessary to debit the concern at present with any portion of the Director's salary.

As regards establishment, the Director may send in his proposals for the establishment as needed from time to time. As far as possible this establishment should be recruited locally and if competent men are not forthcoming, arrangements may be made to entertain others for temporary periods and train up local men.

9. The Director is requested to further investigate the question as to the most advantageous methods of disposing of the oil in foreign markets and submit proposals in due course in the matter as also on the arrangements to be made to ensure a high quality and purity of the article.

10. The Director is requested to arrange for giving the necessary industrial and chemical training in the factory to at least three men at a time, preferably graduates in Chemistry or if they are not available, undergraduates who have passed the Intermediate Examination with credit in Chemistry. The selection may be made in consultation with the Inspector-General of Education and the names submitted for the approval of Government.

11. The Director should submit a quarterly report of the working of the factory with a correct balance sheet.

V. Installation of the Cauvery Power Scheme.

No. 755-7—C. P. S., DATED 6TH OCTOBER 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

Chief Electrical Engineer's letter No. 138, dated the 6th March 1915.
Ditto No. 306, dated the 18th May 1915.
Ditto No. 327, dated the 27th May 1915.
Ditto No. 498, dated the 3rd August 1915.
Ditto D. O. letter No. 197, dated the 28th August 1915.

Order No. 755-7—C. P. S., dated 6th October 1915.

The IV Installation of the Cauvery Power Scheme provided for the erection of two new generating units of 2,000 H. P. each, in addition to the existing twelve units of an aggregate capacity of 14,650 H. P., for supplying extra power to the extent of 5,000 H. P., under the new agreement with the Mining Companies.

2. The IV Installation works are now practically completed and the total capacity of the generating station now is about 18,650 H. P.

3. This block of power is distributed to the extent of 18,402 H. P., as detailed in a statement appended hereto and abstracted hereunder:—

	Horse Power
Mining companies on the Kolar Gold Fields	9,321
Mr. Haji Ismail Sait do	30
New power to be supplied as per agreement	5,000
Distribution losses at 5 per cent	716
Lighting and power supply, Bangalore	1,663
Ditto Mysore	280
Transmission line losses	1,992
Total ...	18,402

There is thus no spare power available for meeting future demands, and even to meet present demands, all the generators have to be kept going constantly.

4. According to the Chief Electrical Engineer's forecast, the future demand is expected to bring the total load on the station to about 21,000 H. P. in the next two years. He therefore recommends the installation of a 15th generating unit of 4,000 H. P. capacity to serve the double object of affording relief to the existing generators and meeting future demands. The cost of the unit, together with the allied works, is estimated at Rs. 2,67,891 as under:—

V. Installation—	Rs.
(*a*) New generating unit...	1,35,303
(*b*) Penstock line	1,19,831
(*c*) Contingencies	12,757
Total ...	2,67,891

5. Along with this work, the Chief Electrical Engineer proposes to effect some improvements to the No. 12 turbine, which is reported to be in an unsafe condition at present and also to increase the voltage [illegible]

line from 22,500 to 35,000 so as to prevent frequent short interruptions to the lighting service now experienced. The improvement works are estimated at Rs. 95,297 as shown below:—

Improvements to the existing installation—	Rs.
(*a*) Improvements to No. 12 turbine	28,996
(*b*) Improvements to the Mysore transmission line.. ...	61,763
(*c*) Contingencies	4,538
Total ...	95,297

6. The Chief Electrical Engineer has recently carried out some experiments which go to show that with one cusec flow of water 28 H. P. can be generated. At this rate, 750 cusecs provided in the first stage of the Cauvery Reservoir Scheme, 21,000 H. P. can be generated, that is, practically the whole of the power contemplated by the V. Installation, and the water originally intended to be reserved for irrigation in the first stage of the Cauvery Reservoir Project need not be utilised for the generation of power, except to the extent of 50 cusecs to serve for contingencies.

A brief report may be sent up to Government every quarter commencing from 1st October 1915, showing the relation of the power generated to the quantity of water consumed. The submission of this report may continue for one year.

A similar trial will be necessary when the V. Installation is completed.

7. Under the circumstances the Government of His Highness the Maharaja of Mysore are pleased to sanction the estimates aggregating Rs. 3,63,188 for the V. Installation of the Cauvery Power Scheme and the other improvements referred to.

8. Government desire that, when submitting proposals for distribution of power in future, the Chief Electrical Engineer should invariably furnish the following particulars:—

(*a*) The total amount of power available at the time;
(*b*) the amount of power already disposed of;
(*c*) the balance available for issue; and
(*d*) the amount of power needed for allotment.

9. The Comptroller is requested to arrange for the allotment of Rs. 2,67,891 under "Capital Accounts" by the reappropriation of grants sanctioned for expenditure in the State during the year, the balance, *viz.*, Rs. 95,297, required for the improvements of the existing installation being debited to the Cauvery Power Scheme "Depreciation Fund."
